SUGGESTION BOOK.

TD 965/118

 Res. 5. Books - small and great - blanked for City Club
 117

In consequence of several Newspapers and Magazines such as Weekly Herald, Contemporary Magazine, Bella Life & Pictorial News having been given up lately some members have suggested the introduction of the "London Telegraph" Longman's McMillan's or St James Gazette

7 The Attention of one of the Comtee has been called to the dangerous cracks in the Springboard and also to the constant leakage of Cold water taps in wash hand basin in Lavatory

Could the Club not in some way utilise the Hot Spray box for the boys? It has been nailed up for some time past

9 The Dressing rooms in connexion with the swimming pond to be made more comfortable so as to give bathers no excuse for using cooling room to the exclusion of Turkish bath

Jan 5 That the new light in the Cooking Room be removed. It is not suited to the room, the principal use of which is ~~for~~ to enable bathers from the Turkish Bath to rest and cool. The light should be low and soothing to the eyes, and the former light was good enough. If the room is to be diverted from its primary purpose and turned into a reading room, the change might be excused, but as it is, and considering that there is another apartment specially devoted to reading, ~~there~~ the writer humbly suggests that the room be retained to its former and better state.
